Professional Summary

Software engineer with practical experience in enterprise technical support, workflow automation, SQL optimization, Salesforce customization, and Java application development. At TCS, support an international client environment, resolve 30+ technical issues weekly, and maintain ServiceNow workflows. Project experience includes Java 17, Spring Boot, REST APIs, MySQL, authentication, payment and messaging integrations, and manual/API regression testing. Strong foundation in DSA, OOP, DBMS, debugging, and software development practices, with a focus on validating AI-assisted outputs and learning new technologies.

Technical Skills

Programming: Java, Python, C++, SQL, JavaScript, Apex, Shell/Bash

Backend & APIs: Java 17, Spring Boot, Spring Web, Spring Data JPA, JPA/Hibernate, REST APIs, API integration

Web & Databases: HTML, CSS, ReactJS (project experience), MySQL, NoSQL fundamentals, schema design, SQL optimization

Platforms & Tools: Git, GitHub, GitHub Actions, Postman, ServiceNow, Salesforce, MuleSoft, Azure/Microsoft 365, Claude API, GitHub Copilot

Practices: OOP, DSA, DBMS, SDLC, Agile, debugging, root-cause analysis, manual testing, test-case design, API/regression checks, code review, documentation

Professional Experience

Tata Consultancy Services (TCS) — Assistant System Engineer Trainee | Dec 2025–Present | Bangalore

- Support a Netherlands-based enterprise client serving 200–500 users; resolve 30+ technical issues weekly through troubleshooting, root-cause analysis, and stakeholder communication.
- Maintain 4–8 ServiceNow workflow automations and document resolutions; use Claude API and GitHub Copilot for coding support, debugging, and documentation, validating generated outputs.
- Completed Java and MuleSoft onboarding; gained exposure to REST APIs, Azure/Microsoft 365 applications, and enterprise SDLC. Received the TCS On-the-Spot Award.

Kloudeva LLC — Software Developer Intern (Salesforce) | Nov–Dec 2024 | Remote

- Customized Salesforce applications using Apex, Visualforce, and Lightning Web Components; implemented business logic, validation rules, triggers, and workflow automation.
- Worked within an Agile SDLC and gained exposure to cloud application architecture and deployment pipelines.

Celebal Technologies — SQL Developer Intern | May–Jul 2024 | Jaipur

- Optimized SQL queries and indexing across large datasets, improving query performance by up to 40%; worked on schema design, DDL, functions, and data-processing workflows.
- Applied Slowly Changing Dimensions (SCD) and early-arriving-fact handling in a data warehousing assignment.

Projects

Shringar — Doorstep Mehndi Booking Platform

- Built a Java 17/Spring Boot backend with Spring Web, Spring Data JPA, Hibernate, and MySQL, organizing code into controller, service, repository, and DTO layers.
- Developed REST endpoints for JWT/Spring Security authentication, request validation, cart management, booking creation, and payment processing.
- Integrated Razorpay for a 30% advance/70% remaining-payment workflow and Twilio for messaging; designed manual test cases and performed functional, API, and regression checks.
- Debugged and refactored defects throughout iterative testing; reported an approximately 80% reduction in bugs.

Parcel Management System — Java

- Built an object-oriented application handling 100+ sample parcel records; implemented parcel counts, delivery-cost calculations, GST computation, and delivery-time estimates with modular logic.

Pink City Healthcare Hackathon

- Collaborated with a four-person team during a 24-hour hackathon to build HTML/CSS/JavaScript frontend features for finding diagnostic centers; team ranked in the top 20 of 250 teams.

Education

B.Tech in Information Technology — Jaipur Engineering College and Research Center | 2021–2025 | CGPA: 8.4

- Completed undergraduate study in Information Technology, building a foundation in programming, data structures, object-oriented programming, databases, and software engineering concepts.
- Applied core programming and database concepts in Java application development, SQL optimization assignments, and full-stack project work.

Certifications & Achievements

Certifications: ServiceNow Certified System Administrator (CSA); ServiceNow Certified Application Developer (CAD); SAP Cloud ABAP; Claude Developer (Anthropic).

- HackerRank 5-star ratings in C++ and SQL, demonstrating problem-solving and database query skills.
- Received the TCS On-the-Spot Award for contribution in the current role.
- Participated in five hackathons; Smart City Hackathon semi-finalist, and Pink City Healthcare team ranked in the top 20 among 250 teams.
