SUMMARY

Backend Software Developer with a strong foundation in Java, SQL, Data Structures & Algorithms (DSA), and OOP, and hands-on experience in database design, query optimization, system design, and server-side automation. Currently an Assistant System Engineer Trainee at TCS, Bangalore, serving as the primary point of contact for a Netherlands-based client with 200–500 users — resolving 30+ technical issues weekly and maintaining 4–8 ServiceNow workflow automations through clear, professional communication. Earned 5-star ratings on HackerRank in C++ and SQL; ServiceNow and SAP certified.

EXPERIENCE

Tata Consultancy Services (TCS) — Assistant System Engineer Trainee

12/2025 - Present

Bangalore, Karnataka

- Serve as the primary point of contact for a Netherlands-based client with 200–500 users, resolving 30+ technical issues weekly — including software licensing, GitHub Copilot, and OneDrive issues — through clear, professional communication that minimizes downtime and maintains client trust.
- Design and maintain 4–8 ServiceNow workflow automations that streamline operations and ensure reliable backend server and network switch uptime.
- Use AI-assisted development and prompt engineering (Claude API, GitHub Copilot) to speed up backend coding, debugging, and documentation.
- Completed Java and MuleSoft onboarding training; earned an On-the-Spot Award for client contributions.

Kloudeva LLC — Software Developer Intern (Salesforce)

11/2024 - 12/2024

Jaipur, Rajasthan (Remote)

- Built and customized CRM features using Apex, Visualforce, and LWC, applying OOP and backend logic principles on a production Salesforce platform.
- Implemented workflows, validation rules, and triggers to automate server-side business logic and strengthen database integrity across custom objects.
- Learned platform architecture and deployment pipelines, applying Agile SDLC and cloud-native practices to backend workflows.

Celebal Technologies — SQL Developer Intern

05/2024 - 07/2024

Jaipur, Rajasthan

- Optimized SQL queries and indexing strategies across large datasets, improving database query performance by up to 40%.
- Designed and implemented Slowly Changing Dimensions (SCD) and early-arriving-fact handling for a data warehousing project, strengthening backend database architecture.
- Completed six structured assignments covering DDL, functions, indexing, and schema design on production-style database systems.

PROJECTS

Shringar — Personal Project

- Independently built Shringar, a doorstep mehndi booking platform with backend logic and design options, shipped in 1 month through iterative debugging and refactoring — cutting bugs by ~80%.

Parcel Management System (Java) — Personal Project

- Developed a Java-based backend system with structured database logic to manage parcel intake, storage, and delivery for 100+ sample records, accurately calculating parcel counts, cost, GST, and delivery time, applying core Java, OOP, and system design principles.

Pink City Healthcare — Hackathon Project

- Led a team of 4 to build Pink City Healthcare in a 24-hour hackathon, finishing in the top 20 of 250 teams nationwide; built the frontend (HTML, CSS, JavaScript) to help users find nearby diagnostic centers in Jaipur.

EDUCATION

Jaipur Engineering College and Research Center *11/2021 - 05/2025*

B.Tech in Information Technology | CGPA: 8.4 | Affiliated to Rajasthan Technical University (RTU)

TECHNICAL SKILLS

- **Languages: C++**, C, **Java**, SQL, Apex, JavaScript, HTML, CSS
- **Backend & Database:** Backend Development, Database Design, Server-Side Logic, System Design, Workflow Automation
- **Platforms:** Salesforce, MuleSoft, ServiceNow, SAP ABAP, Microsoft Azure
- **Tools:** Git, **GitHub**, VS Code, IntelliJ IDEA, JUnit, Postman, Visual Studio
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), SDLC, Agile Methodology
- **Soft Skills:** Team Leadership, Client Communication, Collaboration, Problem-Solving, Client Management, Adaptability

CERTIFICATIONS

- **ServiceNow Certified System Administrator (CSA)**
- **ServiceNow Certified Application Developer (CAD)**
- **SAP Cloud ABAP**
- **Claude Developer (Anthropic)**

ACHIEVEMENTS & LEADERSHIP

- Earned 5-star ratings in C++ and SQL on HackerRank.
- Competed in 5 hackathons, reaching Smart City Hackathon semi-finals among 100 teams.
- Counselor Intern, Admission Cell, JECRC Foundation — counseled prospective students alongside professors.
- Mathematics Tutor, BLJ Classes — Taught 9th–10th grade students for 4 years; mentored 7 students to score 95%+ in Maths.
